Give Today to Support Sound Planning
Together we can shape a future by choice not chance!

Each week critical land use decisions are made that impact the neighborhood character, landscapes, and natural resources of the Flathead Valley. Citizens for a Better Flathead provides you, your community, and decision makers access to the facts and cutting edge ideas in the field of planning while there is still time to guide how the valley grows. Together we can shape a future that respects the quality of our environment and the character of our communities as our greatest economic assets.

Stay informed with our regular action alerts, fact sheets, quarterly newsletters, and forums.

Get connected with others in your neighborhood who share similar concerns and interests. Be part of a growing community of residents committed to working together to build a sustainable vision for the future of this special valley. We are making a difference!

*We respect all our supporters and NEVER share contact information or publish lists of donors.

- Please send me alerts by email
- Please add me to your alert phone tree.
- Call me to discuss your work further.

Yes! I would like to support Citizens for a Better Flathead and make a tax-deductible gift.
